TO WHOM IT MAY CONCERN

The Embassy of Ukraine in the Kingdom of Norway highly appreciates all the support that Norway, Norwegian people, and Norwegian companies have been providing to Ukraine since the start of Russia's full-scale war of aggression on 24 February 2022.

This support became an essential contribution to the ability of the Ukrainian state to defend itself against the Russian armed invasion and mitigate the terrible humanitarian consequences it has caused.

The ongoing Russia's massive missile attacks on Ukraine's critical civilian infrastructure left hundreds of Ukrainian schools damaged or entirely destroyed. Hundreds of thousands of children have to study under a constant threat of another missile attack. For those living in the regions close to the front line, in the range of Russian artillery strikes, the security situation is even worse.

This has created a significant demand for digital learning devices in Ukraine, which we are currently trying to meet. We would be grateful if you could donate new or used tablets and laptops that we could send to the Ministry of Education and Science of Ukraine for further distribution to educational institutions.

If you are ready to help or have any questions in this regard, please contact the Humanitarian Coordination Center at the Embassy of Ukraine in Norway by E-mail norway.aid2022@gmail.com.

Your support would make a real difference in the lives of Ukrainian schoolchildren and empower them to continue their education despite the adversity they face. Together, we can offer them a brighter future and the tools they need to rebuild their lives and contribute to a stronger, more educated society.
